The flex M.B.A. program equips working professionals with the knowledge, skills and perspectives to lead in the evolving business environment.
Why choose Texas State?
Working professionals seeking a promotion, a career change or a new venture will find that the flex M.B.A. program offers course scheduling flexibility. Evening classes are offered at both the San Marcos and Round Rock campuses, and students have the option of sitting out a semester if needed.

The flex M.B.A. program touts a diverse student population due to the curriculum design, which equips business and non-business majors with a fundamental skill set without requiring leveling courses.

Course Work
All Texas State M.B.A. concentrations provide the knowledge and tools needed for a successful career in the management of organizations. Key elements of the program include a high degree of curriculum integration and a strong focus on professional development. Because of the varied backgrounds of faculty, the program is able to offer a general degree as well as degrees with concentrations in the following areas:

» computer information systems
» engineering technology
» health administration
» human resource management
» international business
A thesis option is available in the general M.B.A. program.
Department Mission

The McCoy College of Business Administration fosters an engaged learning community that prepares a diverse student population for successful business careers as responsible global citizens. The College complements these efforts with research that adds to knowledge, provides solutions to business challenges and contributes to pedagogical advances. As a result, all McCoy College programs are accredited by the Association to Advance Collegiate Schools of Business (AACSB). Less than 5% of the schools worldwide granting business degrees have earned AACSB accreditation.

The McCoy College of Business Administration strives to continue to lead in experiential business education and business-relevant, socially significant research.

Faculty
The McCoy College faculty aspires to create value through business-relevant and socially significant research. The intellectual contributions produced by faculty members add to knowledge about business practices, provide solutions to business challenges and contribute toward understanding and improving the relationship between business and society. McCoy graduate students often have the opportunity to work with faculty on research through course work and several graduate research assistantships offered by the College.

Career Options
In addition to a portfolio of quantitative skills, a McCoy M.B.A. student will acquire practical management and leadership skills. These skills are transferable to any industry including technology, healthcare, manufacturing, financial services, consumer products and nonprofits. McCoy M.B.A. graduates have embarked on career paths at a variety of firms including Apple, Applied Materials, Dell, Frost Bank, H-E-B and IBM.

The M.B.A. program at Texas State provided me with a high-quality education and flexible schedule. I valued the smaller class sizes and the opportunity to work closely with faculty and my fellow students.

– JP Brunelle, M.B.A. ’12,
Project Manager, Dell, Inc.
